Sling Oak Restrictions
Georg Henzler

Sling Oak Restrictions - Overview

- Extension to existing oak restrictions (most notably rep:glob)
- Natural fit for Sling to be able to define permissions for resource types.
 - Exact Node Matching
 - Tree Matching
 - Advanced Path Matching
 - Works for both allows and denies (as for all oak restrictions)

Sling Oak Restrictions - Usage

- **Install bundle sling-oak-restrictions**
 - 1.0.0 about to be released
- **Set up permissions**
 - Content Explorer (CRXDE for single values only)
 - CRX Package
 - AC Tool
- **Disclaimer:** Don't overuse
- **Documentation**
