Apache sling pipes
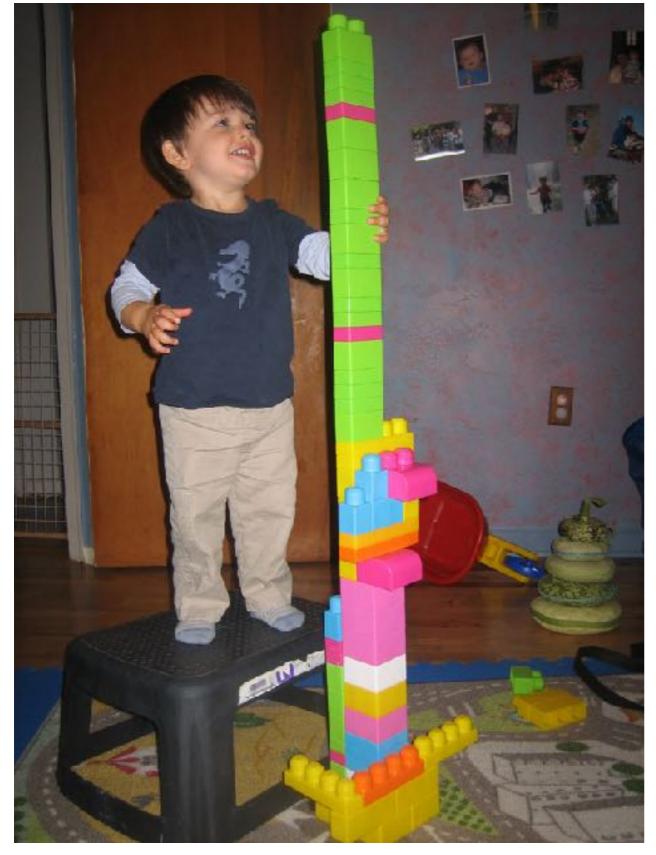

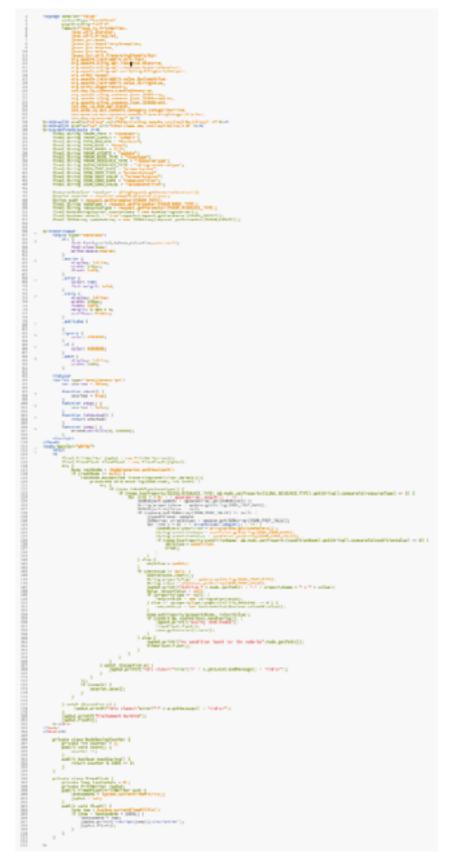

Nicolas Peltier - *adobe.com developer

HOW BIG your tower will be?

Assembling sling blocks we <3

Csv

Json (10k)

Xpath (3k)

getOrCreatePath (300)

Sql (6k)

Move (4k)

Sling Query (135)

Write (12k)

(random import package occurence search on GitHub)

Demo

Conclusion

- Lot of unmentioned pipes (ref, auth,..) and things they do,

- Needs usage, share & ideas, so please try & contribute!

- Usage needs better distribution:

    - Could be used as a content aggregator,

    - Could be distributed together with a console, with AEM specific goodies
