APACHE SLING & FRIENDS TECH MEETUP
10-12 SEPTEMBER 2018

Sling Dynamic Include
Dawid Lewandowski, Cognifide

Concept

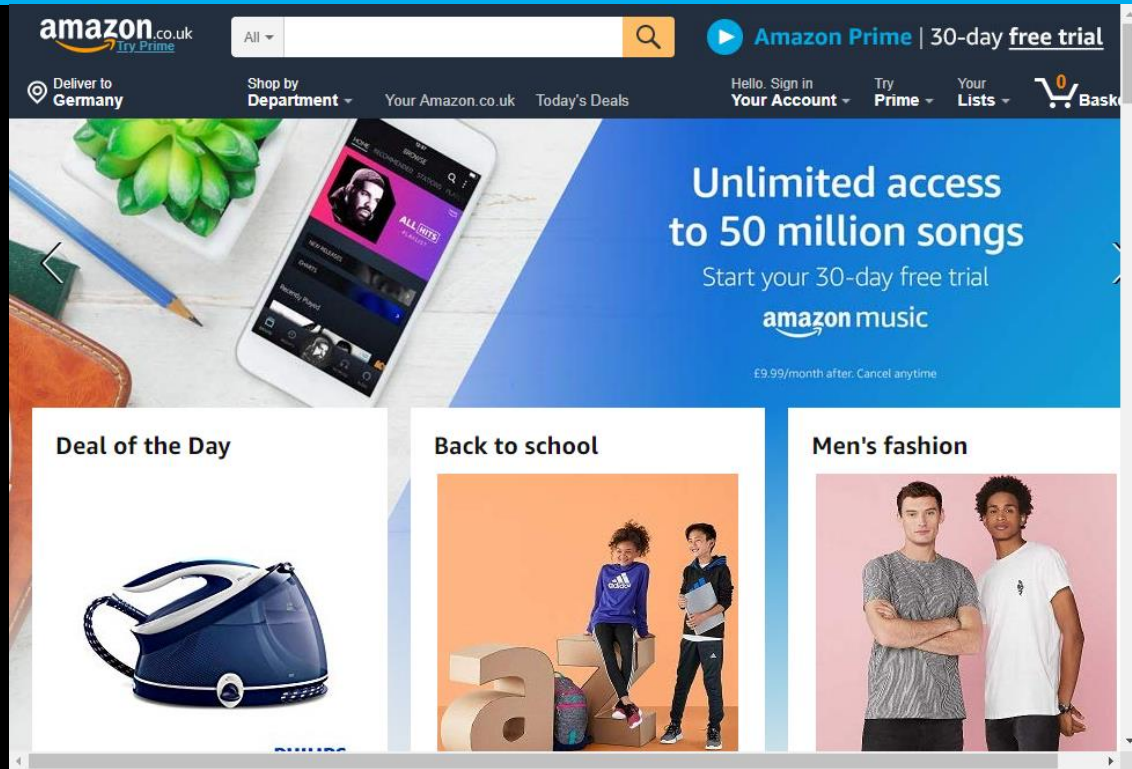

- Sling Filter
- The filter works on components level
- The filter produces SSI tag for specific components instead of markup
- Apache detects SSI and makes additional request for the markup

System architecture

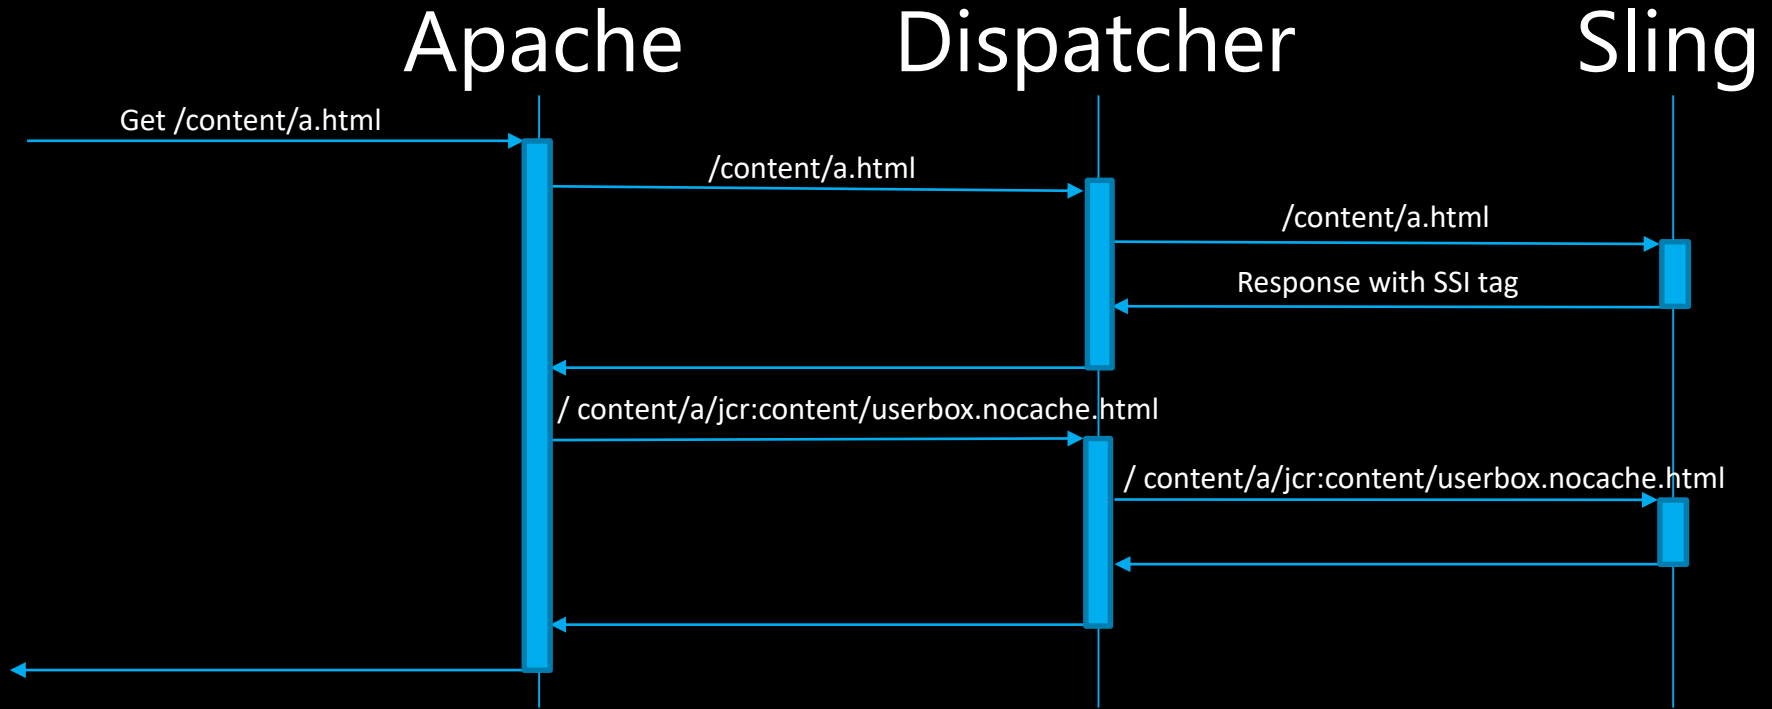

When

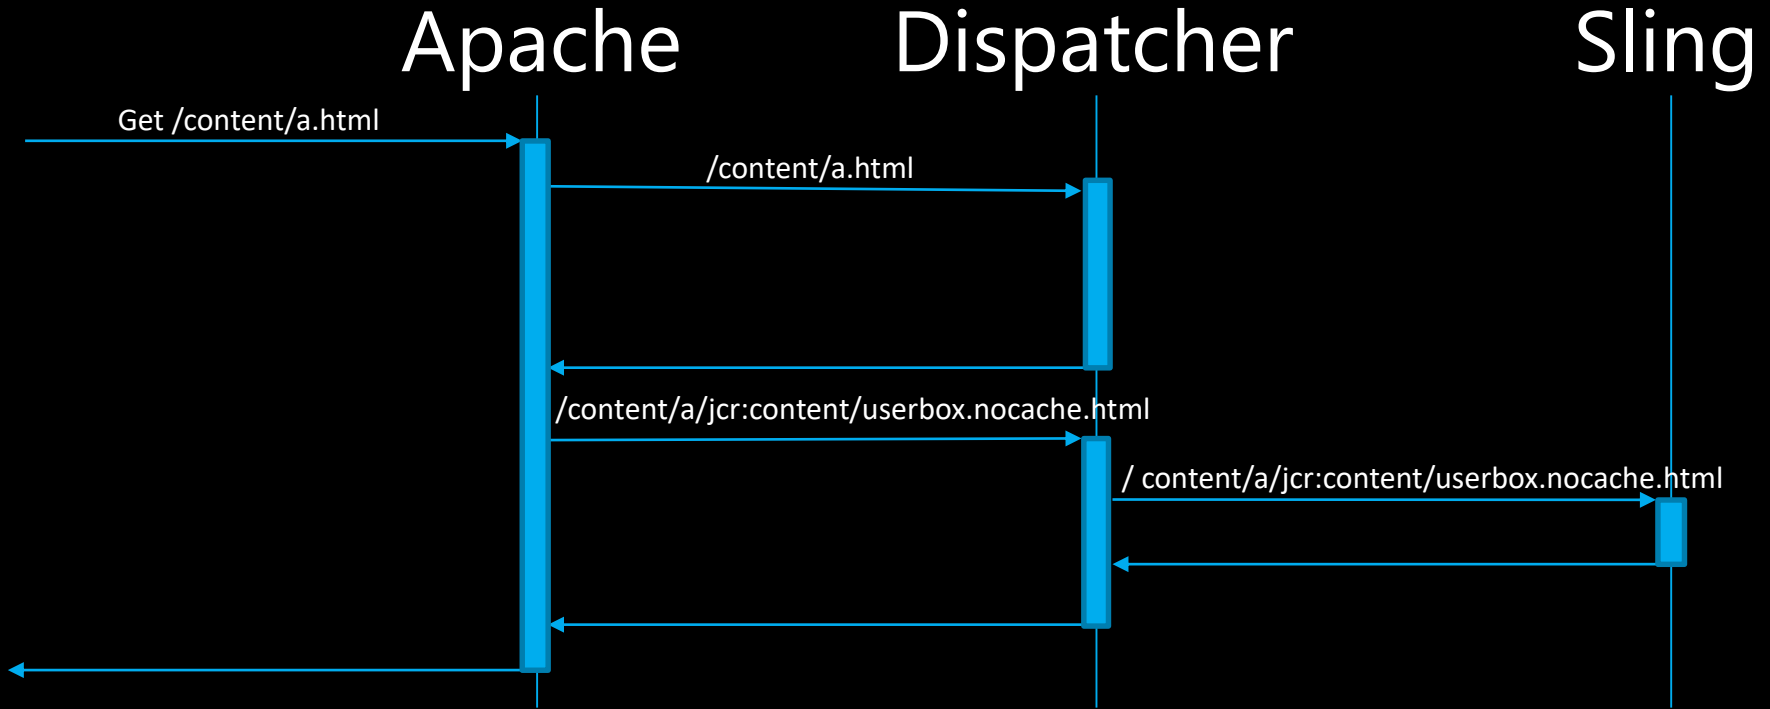

- User components
- Integration components

Dynamic content

Dynamic content

- Header
- Footer
- Experience fragment
